PROFILE SUMMARY

Passionate Data Scientist and B.Tech graduate, currently a Data Science Intern. Skilled in Python, machine learning, data visualization, and fine-tuning deep learning models like BERT and RCNN. Experienced in data collection, analysis, and reporting using standard operating procedures. Strong problem-solving abilities with expertise in automation, process adherence, and delivering accurate, quality results for real-world challenges.

EDUCATION

B.Tech in Computer Science & Engineering APJ Abdul Kalam Technological University	2021 - 2025 Kerala
<ul style="list-style-type: none">CGPA: 7.39	
Higher Secondary, Computer Science Bharathamatha Higher Secondary School	2019 - 2021 Palakkad
<ul style="list-style-type: none">Percentage : 98	

INTERNSHIP AND CERTIFICATION

Data Scientist Intern , Techolas Technologies	April 2025 - Present
<ul style="list-style-type: none">Develop Python applications leveraging TensorFlow, PyTorch, and Scikit-learn for deep learning workflows.Performed data preprocessing, cleaning, and transformation using SQL, Pandas, and NumPy to fit AI/ML models.Train, fine-tune, and evaluate machine learning models (BERT) for CVSS vulnerability prediction and risk assessment.Conduct AI model testing, created visualizations, and prepared detailed reports using MS Office tools for stakeholders.Tech Stack : Python, MySQL, PyCharm, Excel, M S Office , Postman.	

PROJECT

CVSS PREDICTION: BERT CLASSIFIER FOR EVALUATING CVSS	11 / 2024 - 04 / 2025
<ul style="list-style-type: none">Built and deployed a BERT-based CVSS prediction model using Python, TensorFlow, and PyTorch for automated vulnerability scoring.Fine-tuned and optimized machine learning models (BERT, Scikit-learn) using Pandas and NumPy to enhance prediction accuracy and scalability.Fine-tuned and evaluated machine learning models (BERT, Scikit-learn) to enhance prediction accuracy and scalability.Technologies : Python, BERT, Scikit- learn, PyTorch, Pandas, NumPy.
